Nr Be 1974:4

### INRIKES OCH UTRIKES FLYTTNINGAR 1973

#### Definitiva resultat

Internal and external migration 1973

Final data

Tabellerna i detta SM samt ytterligare flyttningstabeller kommer senare att publiceras i Befolkningsförändringar 1973 (SOS) del 3.

Därutöver redovisas flyttningsstatistik i Befolkningsförändringar 1973 (SOS) del 1 och 2. I del 1 finns uppgifter om in- och utflyttning för församlingar, kommuner, storstadsområden, A-regioner och län. Del 2 innehåller dels en matris över flyttningarna mellan kommuner, dels köns- och åldersdifferentierade tabeller över in- och utflyttade för län, A-regioner och kommuner samt storstadsområden.

### PRIMÄRMATERIAL

SCBs register över totalbefolkningen (RTB) erhåller veckovis ändringsmeddelanden i form av magnetband från länsstyrelserna. Magnetbanden framställs i samband med uppdateringen av länsstyrelsernas register. Utgångsmaterial för uppdateringen är de av pastorämbete (i Stockholm och Göteborg lokal skattemyndighet) till länsstyrelsen aviserade förändringar som t ex födelse, flyttning, dödsfall, civilståndsändring. De ändringsmeddelanden till RTB som avser inrikes flyttningar, immigration och emigration utgör primärmaterial till denna rapport och avser den kyrkobokförda befolkningen. Statistiken över befolkningsförändringarna bygger således på folkbokföringsmaterial och måste acceptera dess begrepp och definitioner.

### DEFINITIONER OCH BEGREPP

De flyttningar som redovisas i statistiken är flyttningar över församlingsgräns samt över kommungräns inom samma församling. Kyrkobokföringsdistrikt likställs med församling i flyttningsstatistiken.

Flyttningstidpunkten definieras som den vecka flyttningen registrerades vid länsstyrelsens datakontor. För inrikes flyttning över länsgräns registreras flyttning både vid ut- och inflyttningsslänets datakontor. Med flyttningstidpunkt i detta fall avses registreringsvecka vid utflyttningsslänets datakontor.

Enligt folkbokföringsregler skall flyttning anmälas till pastorsämbetet (i Stockholm och Göteborg lokala skattemyndigheten) inom två veckor efter flyttningen. Registrering av flyttning sker i allmänhet någon vecka efter att anmälan om flyttning har ägt rum. Det bör emellertid observeras att i ett icke

Single issue: Sw.Kr. 3.40 (unless otherwise specified).

obetydligt antal fall torde den faktiska flyttningen ha ägt rum långt tidigare än tidpunkten för registreringen.

För att bli registrerad som immigrant skall den avsedda vistelsen i riket avse minst ett år enligt tillämpad praxis vid folkbokföringen. För att bli registrerad som emigrant skall man ha för avsikt att bosätta sig stadigvarande i utlandet.

T o m 1967 överfördes alla personer som saknat känd hemvist vid två påföljande mantalsskrivningar till bok över obefintliga (fr o m 1968 obefintligregistret). Fr o m 1968 gäller emellertid att utländsk medborgare, som enligt vad man kan anta ej längre är bosatt i Sverige och svensk medborgare, som enligt säkra upplysningar vid två mantalsskrivningar i följd är stadigvarande bosatt i utlandet, skall avregistreras som emigrant. Till obefintligregistret överförs således personer som vid två mantalsskrivningar i följd har saknat känd hemvist och där upplysningar saknas om att personen utvandrat.

#### BRISTER I MATERIALET

För emigranter föreligger vissa brister i materialet beroende på att en del personer som utvandrat inte anmäler detta till pastorsämbetet. Hur stora dessa fel är saknas ännu uppgift om. Enligt en urvalsundersökning presenterad i Invandrarutredningen 1 (SOU 1971:51) anges emellertid att av i Sverige kyrkobokförda finländare hade 5 proc utvandrat, av jugoslaver hade 9 proc utvandrat, av italienare 19 proc och av tyskar 13 proc. Urvalsram var immigranter 1961 - 1968 som var i åldrarna 16 - 67 år vid invandringen. För att få reda på kvarboende personer matchades stickprov mot RTB. Undersökningen anger dock inte vid vilken tidpunkt som utvandringen har skett, varför det inte är möjligt att sätta personer som utvandrat men inte registrerats som utvandrare i relation till dem som ingår i statistiken.

#### REGIONAL INDELNING

Den regionala indelningen för samtliga områden är den som gäller fr o m 1974-01-01.

#### TABELLERNÄ

Förändringar har gjorts i tabellerna 2, 3 och 4, där tidigare de 18 största kommunerna redovisades. Kommunvisa uppgifter publiceras nu i Befolkningsförändringar 1973 (SOS) del 1 och 2. I stället för de 18 största kommunerna redovisas uppgifter för riksområden och H-regioner. Antalet riksområden är 8 stycken och består av ett eller flera län. Antalet H-regioner är 7 stycken och består av kommuner med likvärdigt lokalt befolkningsunderlag och med jämförbara avstånd till större befolkningskoncentrationer. Kommunerna behöver inte ligga intill varandra. Regionerna kan sägas vara hierarktiskt ordnade från tätbebyggelse till glesbygd. Definitioner och omfattningen av riksområden och H-regioner framgår av bilagan.

I övrigt är tabellinnehållet oförändrat.

#### SUMMARY

The Register of the Total Population (RTB), kept by SCB, obtains each week on magnetic tapes information on changes from the County Board. The magnetic tapes are produced in connection with the changes of the County Board register. The basic data for the registers are changes like birth, migration, death and marital status notified to the County Board by Parish Authorities. Information

changes given to the RTB concerning internal migration, immigration and emigration make up the raw data of this report.

The announcements obtained by the National Central Bureau of Statistics (SCB) via County Boards concern the registered population. Statistics on vital events are thus based upon National Registration and consequently must accept its conceptions and definitions.

Migrations published in the statistics are migrations across parish borders or across commune borders within a parish.

The time of migrations is defined as the week of its registration at the County Board.

According to the definitions of the National Registration migration shall be reported to the Parish Authorities within two weeks of the migration. Registration of migration usually take place a few weeks after the report of migration. It should, however, be observed that in many cases the actual migration took place far earlier than the time of registration.

To become registered as an immigrant the actual stay in the country shall last for at least one year according to practice applied at the National Registration. To be registered as an emigrant you shall have the intention to settle abroad permanently.

Until 1967 all persons who had no fixed place of abode at two successive annual registration controls were transferred to the "Residence Unknown" Register. From 1968, however, is valid that foreign citizens, who can no longer be presumed to live in Sweden, and Swedish citizens who according to reliable information at two successive annual registrations have a permanent abode abroad shall be deregistrated as emigrants.
